

Ellie had her first litter on Boxing Day 2007, not the most convenient time but possibly better than Christmas Day itself. This was something of a surprise as the Vet had done a scan a few weeks after the mating and pronounced that that Ellie was not pregnant. Anyway we now have three boy pups all doing well and some pictures are below; we will add more pictures and information as the develop.

Mum (Starfield Ice Galaxy) - Ellie

Dad (Sylvastones Tazinskistar) - Taz

Time flies and Barney, the pup we kept from Ellie's litter is now 6 1/2 months old and as big as his mum already.

He has started his showing career with remarkable success so far. The trophy board below shows what he has managed to win in only his first 2 weeks (actually one or two of the rosetes were won by his mum, but most are his)

The Trophy board after only a couple of weeks in the ring. Lets hope he can keep it up.
